Hydrobiologia **402:** v–vi, 1999.
A.W.C. Dorresteijn & W. Westheide (eds), Reproductive Strategies and Developmental Patterns in Annelids.

Contents

Preface vii

List of participants ..... ix–xi

Reproductive and developmental phenomena in annelids: a source of exemplary research problems
by Albrecht E. Fischer 1–20
Structure, function and development of segmental organs in Annelida
by Thomas Bartolomaeus 21–37
Reproduction of the Syllidae (Annelida: Polychaeta)
by Hans-Dieter Franke 39–55
Reproduction and larval development of the spioniform Polychaeta with application to systematics and phylogeny
by James A. Blake & Pamela L. Arnofsky 57–106
Reproduction and development in Cirratulidae (Annelida: Polychaeta)
by Mary E. Petersen 107–128
Divergence of reproductive and developmental characteristics in *Hediste* (Polychaeta: Nereididae)
by Masanori Sato 129–143
Nereidid polychaetes as model organisms for marine chemical ecology
by Jörg D. Hardege 145–161
Metabolite supply in oocytes of *Nereis virens*: role of nucleosides
by Ulrich Hoeger, Nicole Rebscher & Gunter Geier 163–174
Polychaete aquaculture and polychaete science: a mutual synergism
by Peter J.W. Olive 175–183
Development of Perviata and Vestimentifera (Pogonophora)
by Eve C. Southward 185–202
Sexual conflict and mating systems in the dorvilleid genus *Ophryotrocha* and the dinophilid genus *Dinophilus*
by Gabriella Sella & Liliana Ramella 203–213
Polychaete sperm: phylogenetic and functional considerations
by Greg W. Rouse 215–224
Sperm types and their use for a phylogenetic analysis of aquatic clitellates
by Marco Ferraguti & Christer Erséus 225–237
Larval settlement of polychaetes
by Pei-Yuan Qian 239–253

Conservation and innovation in spiralian development
by Jonathan J. Henry & Mark Q. Martindale 255–265
The ancestral cleavage pattern of the clitellates and its phylogenetic deviations
by Wolfgang Dohle 267–283
Cellular origins of bilateral symmetry in glossiphoniid leech embryos
by David A. Weisblat 285–290
Systematization of the Annelida: different approaches
by Wilfried Westheide, Damhnait McHugh, Günter Purschke & Greg W. Rouse ... 291–307

Index 309–314
